Child & Vulnerable Adults Protection Policy

Baldock & District Canoe Club (BDCC) is fully committed to safeguarding the well being of its members and recognises that it has a 'duty of care' to ensure that all those taking part in canoeing are able to do so protected and safe from harm. This is particularly true in respect of children and vulnerable adults.

All members should show respect and understanding for the rights, safety and welfare of others, and conduct themselves in a way that reflects the principles of the Club. BDCC believes that taking part in canoeing should be a positive and enjoyable part of everyone's lives and to achieve this have the following aims:

Appendix C – Guidelines for the use of photographic and filming equipment

BDCC recognises that publicity and pictures/recordings of young people enjoying canoeing are essential to celebrate the achievements of the child and to promote the sport, club and a healthy lifestyle. However it is important to observe the following guidelines.

The key concerns regarding the use of images of children and young people relate to:

- The possible identification of children when a photograph is accompanied by personal information;
- The inappropriate use, adaptation or copying of images for use on child pornography or illegal websites;
- The taking of inappropriate photographs or recorded images of children.

Guidelines for taking Photographic / Recorded Images

- Ensure parents/guardians and the young person have granted their consent for the taking and publication of photographic images;
- All children featured in recordings must be appropriately dressed with outer clothing garments covering torso from at least the bottom of their neck to their thighs (i.e. a minimum of vest/shirt and shorts);
- The photograph or recording should focus on the activity rather than a particular young person and personal details, which might make the young person vulnerable, such as their exact address, should not be revealed;
- BDCC coaches, volunteers and officials should be allowed to use video equipment as a legitimate coaching aid and means of recording events, trips and special occasions however care should be taken in the dissemination and storage of the material;
- You should not use any images of a child or young person who is the subject of any court order or who has denied you their consent;
- Parents and spectators taking photographs/recordings should be prepared to identify themselves if requested and state their purpose for photography/filming;
- Any instances of the use of inappropriate images should be reported to the Club, British Canoeing or the Police.

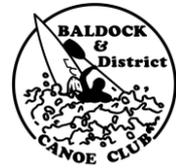

Guidelines for publishing Photographic / Recorded Images

If a photograph is used, it is appropriate to name the child. However, personal details of children such as an email address, home address and telephone numbers should never be revealed on a website or in print.

Think about the level of consideration that you give to the use of images in all publications, for example the process used in choosing photographs for a publicity brochure for the Club or event.

Apply an increased level of consideration to the images of children used on websites.
